

BT Hand Pallet Truck Solutions

The world's best selling hand pallet truck

Product range

Lifter Hand Pallet Truck

The BT Lifter is the universal hand pallet truck, suitable for moving loads in all types of applications.

The BT Lifter hand pallet truck is available in a number of different fork sizes and styles to suit varying types of load.

Below are just some of the options available to suit different types of applications:

- Wheel material
- Parking or deadman brake
- Stillage rack
- Weigh scales
- Pallet stop
- Quick lift

The BT Pro Lifter Hand Pallet Truck

The Pro Lifter is a low cost, low maintenance hand truck alternative to powered models that significantly reduces the physical strain on operators by up to 67%.

The unique system (Pro Start Technology) enables the initial moving of the load with minimum effort from the operator.

Stainless Steel Hand Pallet Truck

BT stainless steel hand pallet trucks are specially designed for corrosive environments or applications that demand high standards of hygiene.

Used extensively in the food processing and pharmaceutical industries, all components are made from stainless steel, or other non corrosive materials, which give the truck reliability and longevity.

These features also ensure there is no risk of contamination to the products being handled.

Quality guaranteed – for a lifetime

For generations, the BT Lifter hand pallet truck range has set the standard for the hand pallet truck industry. Now every BT Lifter comes with a lifetime (99-year) functional guarantee on the fork frame and a 5 year warranty on the pump and tow bar making them the obvious choice for reliable performance and the best value for money.

Customer services and solutions

Toyota Material Handling UK provides a nationwide mobile service for maintenance, repair and advice on hand pallet truck applications and usage.

All Toyota hand pallet truck mobile workshops are operated by specialists who are fully trained to repair all popular makes of hand pallet trucks.

On site attention can sometimes be costly due to travel and/or callout charges. With Toyota Material Handling's mobile workshops you only pay for the time spent on site, substantially reducing your equipment operating costs.

Provision and Use of Work Equipment Regulations, 1998. (PUWER 1998)

All mechanical handling and lifting equipment is classed as 'work equipment' and subject to the PUWER regulations. They require:

- The inspection and maintenance of equipment.
- The provision of information, instruction and training.
- The marking of controls.
- That mobile work equipment for carrying persons is suitable.
- Protection from rolling over.
- Facilities to prevent unauthorised operation.
- The provision of lighting equipment where necessary.
- The provision, where necessary, of devices to improve vision.

Preventive Maintenance

As with any mechanical equipment used over a period of time certain components will inevitably need replacing.

Toyota's Hand Pallet Truck Specialists can advise on the best type of plan tailored to your needs, ensuring your trucks continue to operate in the most cost effective way.

In addition we also hold all service details in accordance with PUWER.

Comprehensive Parts Stock

Our mobile units carry on board a full range of replacement parts to ensure your trucks continue to work with maximum uptime.

In the event that a truck is beyond economical repair we will arrange for a replacement normally within 24hrs.

Technical Advice

Toyota's Hand Pallet Truck Specialists have vast industry experience and can offer comprehensive advice with regard to the correct usage, type and specification of equipment.

The Toyota philosophy of looking for a solution and not just fixing a problem has, over the years, enabled us to develop strong working partnerships with our existing customers. It's looking after our customers that has helped make the BT Lifter the world's best selling hand pallet truck!

Customer Options

Rental

Ideal for those who prefer to have the use, but not ownership, of the truck. Toyota Material Handling's 'User Club' has been chosen by many customers who prefer the 'hassle free' way of operating their fleet of hand trucks with budgeted annual costs.

Service

A range of flexible service plans designed to suit to your business needs helping to significantly reduce the risk of breakdowns.

Special products

Variations of equipment that can solve specific problems or help improve the handling performance for the operator, resulting in lower handling costs.

For a free site survey or technical advice from a specialist team please call Toyota Material Handling on 0870 850 1400.

Availability and specifications are determined regionally and are subject to change without notice. Please consult your authorised Toyota Material Handling distributor for details.
